Ends Winters Troubles.

To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skids, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of burns, boils, piles, cuts, sores, eczema and sprains. Only 25c at Harp Drug Co.

Make Up Your Own Mind

When in the need of a cough medicine. If you buy Dr. Bell's Pine-Tar-Honey we guarantee you got the best.

Coffee Commissioners In Covington.

Tuesday the members of the Commissioners Court of Coffee county went to Covington to see the road work going on there. Judge Rowe and Commissioners Patrick, Nichols, Livings, and Dyess were those who went, being the full membership of the Court. They spent the entire day near the Coffee county line and between there and Opp, looking at the road work. They say that the work is making magnificent roads, though the cost is considerable.

The Clipper learns that all the members of the Court are good roads enthusiasts. It is also understood that no definite plan has been taken upon by the Commissioners for bringing good roads to pass. We all know that the Commissioners cannot build roads that is good roads, without spending a good deal of money. That is the way with everything that is worth while. It costs money. And it ought to cost money. For it would be out of reason to expect to get good things for nothing.

There is only one way that The Clipper knows of to get money enough to give the county good roads and do it in this generation. That plan is to float bonds and get a good big sum of money and build permanent roads. If there is any other plan by which it could be done we don't know of it. However, The Clipper is for any plan that any one may suggest that looks toward getting good roads. So far as we are informed the Commissioners Court has no plans on foot to call for any bond election. We believe that they would be glad to call a bond election, and let the people say whether they want the county to build roads with bond money. Every man who is interested in the matter ought to take the trouble to let the Commissioners and Probate Judge know what he thinks about it. We feel sure that the Commissioners want to do what will please the people.

Wants to Help Some One

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Suffering so long himself he feels for all distress from backache, Nervousness, loss of appetite, lassitude and kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes "wholly cured me and now I am well and hearty." It's also positively guaranteed for liver trouble, dyspepsia, blood disorders, female complaints and malaria. Try them. 50c at Harp Drug Co.

Several hundred representative men of Alabama met in Montgomery this week for the purpose of forming plans to bring new people to the state. Ex Gov. Jeff's proposed that guarantee companies be formed in all counties to protect settlers from loss, and to sell lands at fair prices. It is the best plan we have yet heard of, and if adopted, will surely bring results.

Banks on Safe Thing Now.

"I'll never be without Dr. King's New Life Pills again," writes A. Schingock, 647 Elm St., Buffalo, N. Y. "They cured me of chronic constipation when all others failed." Unequalled for biliousness, jaundice, indigestion, headache, chills, malaria and debility. 25c at Harp Drug Co.

Antiseptic Remedies

destroy disease germs, Dr. Bell's Anti-Pain is an antiseptic remedy for external and internal pains, relief is almost instantaneous. Sold by all dealers.

Leg Broken.

Mr. J. S. Windham had the misfortune to get his leg broken Tuesday afternoon. Mr. Windham was working with the road machine, that is at work on the streets on Smith avenue, and in some way got his foot hung and when the machine moved fell. We learn that he is resting nicely and hope that he will be out in a short time.

Take Care!

Remember that when your kidneys are affected, your life is in danger. M. Mayer, Rochester, N. Y. says: "My trouble started with a sharp shooting pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." City Drug Co.

Cutting at Haymon.

One day last week Mr. Earl Pearce and Mr. Claude Wallace became involved in a difficulty near Haymon. Mr. Pearce received a very bad cut about the ear and neck and Mr. Wallace was cut in the back.

The participants have not been learned.

Saved From Awful Death

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C. R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetite and seemed to grow weaker every day, as all remedies failed, till Dr. King's New Discovery was tried, and so completely cured her, that she has not been troubled with a cough, colds, lagripp, asthma, croup, hemorrhage and all bronchial troubles, it has no equal, 50c, \$1.00 Trial bottle free. Guaranteed by Harp Drug Co.

Mr. J. M. Free, a farmer of near Victoria, was here Wednesday and received \$5.00 as a reward for returning a coat that was lost by Dr. Enzor, of Freeport, Fla., a few weeks ago. Dr. Enzor advertised the reward in The Clipper, and the coat was returned to this office where Mr. Free was paid \$5.00.

The bazaar conducted by ladies of Baptist Church Tuesday and Wednesday of this week, was well patronized and very successful in departments. About \$75.00 was realized from the sales and dinners furnished by the members of the Ladies Aid Society. The ladies requests us to tender their thanks to the people and to give notice that another sale will be held on the same dates next year.

BY HUSTLER.

Hastler's on a bonder.

Oh! you turkey. Our thanks went up. It was a great Thanksgiving in these parts they say. It might have been as Hustler wasn't at home.

A very disastrous wind and rain storm struck this section early Sunday night. The cloud came up from the southwest and the tightest puff lasted only a few seconds. A number of houses as well as a considerable amount of timber and fences were blown down. No other damages from the storm have been reported. We are glad it didn't get Hustler.

Syrup making is about over in this locality. Don't you begin to smell "de run."

Since the storm the weather has been much cooler. Now for that Xmas porker.

No dog and bear fight at Abbeville on Thanksgiving said Comer.

It is learned that there will be a good deal of moving to take place in this locality during the next few days. It seems hard for the people to learn that the better place is not always ahead.

In the years of the cotton, Coffee county doesn't prove to be any home for the idle, or at least the amount of clearing, rail-splitting and house building that is destined to be pulled off by our farmers during the present winter doesn't indicate it by any means.

The world gets more like Xmas each shining passing day.

Hustler's on the hustle and Hustler's got to close.

Institute Notes.

The Coffee County Teachers Institute, according to previous arrangements, convened Friday and Saturday (Nov. 25th and 26th) at two, two miles south of Elba.

With few changes, due to the absence of certain speakers, the following programs was rendered.

Friday A. M.

- 1 Devotional exercise by J. D. Fuller.
- 2 Welcome address, by O. B. Bowen.
- 3 Response, by T. C. Foster.
- 4 Organization and enrollment.
- 5 Educational outlook in coffee county, by Supt. C. H. Byrd.
- 6 Adjourn for dinner.

Friday P. M.

- 1 Discipline, by J. E. Hudson and Miss Mae Gordin.
- 2 The school as a social center by Miss Eunora Farris.
- 3 How to teach history, by G. C. Bowden.
- 4 Co-operation between parents and teachers, by T. W. Taylor, Jr.
- 5 Teachers experience meeting.

Friday night.

Debate: Resolved that Alabama should institute compulsory education. Affirmative, J. W. Maddox and S. L. Mathison. Negative, O. B. Bowen and J. D. Fuller.

Saturday A. M.

- 1 Devotional exercise, by R. J. H. Simmons.
- 2 Through how many grades should the rural school be taught? B. F. Weaver and Miss Alice Rowe.
- 3 Cleanliness, by Miss Alice Huggins.
- 4 Beautification of premises by J. Gassette.
- 5 Round table discussion.

The first change to take place in the above program was the selection of Rev. C. O. Rhodes by Prof. Bowen to deliver welcome address. Rev. Mr. Rhodes gave the teachers and visitors a very hearty welcome and caused us to feel that we had cast our lot with

a people deeply interested in the cause of education.

T. C. Foster not being present to offer the response, J. D. Fuller was selected to take his place.

After hearing the able talk made by Mr. Fuller, the Institute went into the election and appointment of officers, R. S. Tillman was elected secretary, and W. B. Sasser, T. D. Woodham, and Miss Mary Crawford were appointed by the superintendent as a committee to supply the vacancies made by the speakers who were absent.

After the election and appointment of officers a short time was spent in the enrollment of teachers and visitors.

The subject of educational outlook in Coffee county was discussed at some length by Supt. C. H. Byrd, Prof. G. C. Bowden, and others.

At twelve o'clock the Institute adjourned one hour and thirty minutes, during which time we enjoyed the bountiful dinner which was spread for us.

Friday afternoon J. E. Hudson was absent and T. C. Foster was appointed to take his place on the subject discipline.

Also Miss Eunora Farris and Nancy Lewis, who had been given a place on the program were not present and the subjects assigned them were discussed by others.

Many good thoughts were brought out during the afternoon session among which was a strong and instructive talk made by Miss America Hargis, of Enterprise.

The debate Friday night was very interesting. J. W. Maddox, a speaker on the affirmative, was absent and J. Gassette was appointed to serve in his place. The speeches showed tact and preparation on the part of the speakers. The judges after carefully weighing the points brought out on each side, found that they would almost balance, but finally decided in favor of the negative.

Saturday morning the Institute assembled at nine thirty o'clock. R. J. H. Simmons being absent J. D. Fuller conducted Devotional exercises.

B. F. Weaver and Miss Alice Rowe being absent Saturday morning, the subject, Through how many grades should the rural school be taught, was discussed by several members of the Institute. T. C. Foster who took a prominent part in the discussion, presented some thoughts on this subject that started the interrogative machinery, and it continued to run until the close of the Institute.

Miss Alice Huggins made an excellent talk on the subject of cleanliness. After J. Gassette had finished his address on the beautification of premises, it was stated by the chairman that we would not engage in the round table discussion.

At the close of the meeting it was decided that the next Institute be held at County Line school house, near the line of Coffee and Pike. The following were appointed as a program committee: T. C. Foster, I. O. Keyser and Miss Irene Grant. A motion was made and carried that the proceedings of the Institute be published in two news papers of the county.

By a motion a committee was appointed and the following resolutions of thanks was drawn up and adopted: Resolved that we the teachers of the Coffee county Institute, tender our thanks to this community for the generous hospitality shown us while in their midst, especially to the ladies upon whom the heaviest burdens have fallen. Also we desire to thank Prof. Bowden for his effort in making this Institute one of the best ever held in Coffee county. Forty-five teachers were in attendance also a goodly number of visitors.

R. S. Tillman, Secretary.

tle. Guaranteed to give satisfac-
tion. Sold everywhere.

The committee that selected
the plan for the new Methodist
church is to be congratulated on the
good judgment displayed. At first
the building did not look as if
it was going to be anything
out of ordinary, but as it grows
nearer completion it grows in
grace and beauty. It can now be
seen that Elba Methodist church is
to be one of the handsomest small
buildings in Alabama; something
that would attract attention and
make a good impression in any
town.

Mr. Rockefeller has probably
been "cussed" as much as any
man on earth because he is rich,
but we must all acknowledge that
he is making good use of his mon-
ey now. The many millions he
has given to investigate diseases
and find cures for them is some-
thing the world has wanted thou-
sands of years and the Standard
Oil King is the only man liberal
enough to supply this want.

Some Revenue Figures.

Washington, Nov. 26.—The United States has just passed a banner year for drinks and smoke and oleomargarine. Here is the nation's record for twelve months ended on June 30 as it shows in the figures of the internal revenue bureau.

168,000,000 gallons of distilled spirits—80,000,000 gallons more than the year before.

59,485,177 barrels of fermented liquors—an increase of 80,000,000 7,600,000 cigars—160,000,000 more than 1909.

6,830,000,000 cigarettes—an increase of a solid billion.

402,000,000 pounds of plug, fine cut, cube cut, granulated, cased smoking or chewing tobacco, or snuff—4,000,000 pounds more than the year before.

141,862,282 pounds of oleomargarine—an increase of 50,000,000 pounds.

Illicit distilling and other manufacturing of moonshine whiskey—on the increase "especially," the bureau says, "where there are Statewide prohibition laws."

The internal revenue receipts on all these things—and certain other things, such as playing cards and mixed flour, amounted to more than \$280,000,000 and Commissioner Cabell's organization collected it all at a cost of about \$5,000,000. It cost a penny and a little more than seven mills to collect each dollar.

From Haymon.

FOLLY-BOLAND.

An interesting event of Sunday the beautiful marriage of Miss Irene Boland and Mr. William Foley. Mr. C. C. Fleming, of Curtis performed the ceremony.

The marriage was at the home of the bride's parents Mr. and Mrs. H. I. Boland.

Many beautiful and elegant gifts were shown which bespeak the love and esteem of many friends. The bride is one of Haymon's loveliest daughter, a woman of noble, earnest purpose. The groom a man of sterling business qualities and very highly esteemed.

Mr. and Mrs. Foley left on Monday for Elba, their future home, where Mr. Foley holds a responsible position with Clark and Patrick. He has many friends who extend him congratulations in winning such a charming and lovely young lady for his wife. The well wishes of hosts of friends go with them to their new home.

Burglars in Elba.

Last night burglars entered the store of Smith & Winston in West Elba near the depot.

Entrance was made through a window and a good many things such as overcoats, shoes, hats, shirts, collars and ties were taken.

Paper was found burned all over the floor and it is supposed that it was used for light. The burglars wore about a number 7 shoe and were tracked across the street from the store.

Later—it is learned that a convict escaped from Richburg last night and has been tracked to the store, and it is thought that he and others took part in the stealing. A liberal reward is out for his capture.

Mr. Bige Windham Dead.

Last Sunday evening Mr. Bige Windham died at the home of his son, W. S. Windham, near Damascus, of old age. He was buried yesterday with Masonic honors by Elba Lodge No. 170, of which he was a member.

Mr. Windham was born in Dale county near Ozark and would have been 77 years of age, had he lived till February. He was a gallant Confederate soldier, and always took part in public affairs. He has been for a good many years an active member of the Baptist Church at Damascus.

He leaves to mourn his death a wife and the following children: Mrs. G. G. of Samson, Mrs. Ida Kimmey, Messrs J. S., W. P., and T. P. Windham, of Elba, and Messrs D. H. and W. S. Windham of West Elba.

To them we extend our deepest sympathy.

Jail For Harlan, Et Als.

Washington, Nov. 28.—Sentences of imprisonment imposed upon W. S. Hilton and S. E. Huggins of Alabama, on peonage conspiracy charges were allowed to stand as legal today by the Supreme Court of the United States. These were the first convictions under the recent crusade of the Federal Government against peonage.

W. S. Harlan, general manager of Jackson Lumber Company, with mills mill near Lockhart, Ala., was arrested in 1906 together with C. C. Hilton and S. E. Huggins, employed at the mills, on charge of conspiracy to commit the statutory offense of "peonage." They were accused specifically of having conspired to arrest and to return to the timber camp of the company a Hungarian named Rudolph Launiger, to work out an indebtedness alleged to be due by him to the company.

Harlan was convicted and sentenced to serve eighteen months at hard labor in the Atlanta penitentiary and to pay a fine of \$5,000; Hilton and Huggins each to thirteen months and pay a fine of \$1,000.

The cases were brought to the court on an appeal from the refusal of the Circuit Court of the United States for the Northern District of Florida to release on writ of habeas corpus.

In a second case, Robert Gallagher, logging superintendent of Jackson Company, was convicted on a similar charge and sentenced to fifteen months in the penitentiary and pay a fine of \$1,000. He too, vainly sought release on habeas corpus.

The Panama Canal will be open in a few years, and the eyes of the world will be turned upon the South. We must hasten the work of education among the masses of our people, if they are to be prepared to reap the benefit of this great world event, which will open up a new era for the South.

The close proximity of power, both coal and water power, to the raw materials of manufacture, cotton, iron and timber, is sure to make our State the greatest manufacturing region of the world. Producing as Alabama will, at minimum cost the finished product of world's staples of clothing and materials of construction, and holding in the former, as the South will, a world monopoly of a prime necessity of human life, their lies before us a future of possibilities of wealth and power beyond the dreams of men.

If our people are to measure up to these possibilities, and are to restore our State and the South to the commanding position befitting our resources, we must hasten the work of education among the masses of our people, if they are to be prepared to reap the benefit of this great world event, which will open up a new era for the South.

From Mr Hobson

My fellow Alabamians: I wish to enlist your cooperation in a movement of supreme importance to our state, that of improving education in country districts.

Under our present system Alabama has dropped to a class by herself below the bottom of all the states. Comparative figures compiled for the years 1908-1909 show that Alabama's total funds for public schools are less than half the funds of Arkansas, are over \$1,000,000 less than those of Louisiana, Mississippi, Tennessee and Georgia. The figures show that we devoted but \$3.86 for each child of school age for the year 1909, while the average for the nine other Southern States was \$3.62, nearly 50% more than for Alabama; the average in the United States being \$12.89, over five times as much. They show that on Education we spend but 18 cents per \$100.00 of our real property, while the average for the nine other Southern States was 21 cents, or 61 per cent more in proportion to wealth, and for the whole country it was 25 cents nearly twice as much. The figures further show that Alabama's great lacking is in county and local funds, the very funds which in the raising create interest and local pride, the total funds from all county and local sources in Alabama doing but 88% of the total while in the other Southern States this average is over 72%.

These astounding figures show how our system in Alabama is impoverishing our country schools and sapping their vitality, and is thus striking at the very root and foundation of our prosperity and our greatness.

The consequences are already appalling. Deaths from typhoid fever, dysentery, malaria, hook worm disease, anaemia and similar diseases resulting from ignorance have gone up to nearly double the average for the rest of the country. Our farmers have been selling their inheritance to outsiders, parting with their precious iron lands, coal lands, timber lands, for a mere song, simply because they do not know any better. Unless the standard of education is raised among our farmers, they will soon be dispossessed of their farm lands and thus complete their disinheritation by outsiders who possess an education.

No time can be lost. The boll weevil has crossed the State line, if we would avoid incalculable loss and a heavy depreciation of our already depreciated farm lands, our whole system of farming must be fundamentally changed.

The Panama Canal will be open in a few years, and the eyes of the world will be turned upon the South. We must hasten the work of education among the masses of our people, if they are to be prepared to reap the benefit of this great world event, which will open up a new era for the South.

ing our Anglo-Saxon blood, and if we are to fulfil our destiny, and cause Southern ideals and devotion to principle, once more to become the determining factors in moulding American institution then we must hasten the proper education of the masses of our people who live on the farms.

Unfortunately the Constitution of State now stands in the way, forbidding under all circumstances, our country school districts from levying taxes for school purposes. Towns and cities can levy such taxes to properly educate their children, but the farmers are forbidden the same right, though this right is a fundamental part of the right of local self-government. No other state in the Union, no other civilized community in the world has such an iniquitous law. Our rural schools being approved by the Constitution of any adequate vital support, are, as a result, in a languishing condition.

I ask your hearty cooperation in the effort to remove this first great obstacle. Will you not counter with your members of both Houses of the Legislature, in person or by letter, and ask them to use their influence to have a proper amendment authorizing district taxation for school purposes to be submitted by the coming session of the Legislature to a vote by the people, not later than next fall?

I should be glad if you write to me here or to the State Superintendent of Education at Montgomery, your own views, and the result of your efforts of cooperation.

With good wishes, I remain, Faithfully yours, R. F. Hobson.

Residence Burned.

Sunday night about 11 o'clock the residence of Mr. J. N. Sawyer in West Elba, was destroyed by fire. It is supposed the fire caught from a defective chimney.

The fire company responded immediately but the flames had gained so much headway that it was impossible to save the building. Only a small amount of the contents were saved.

We learn that a small amount of insurance was carried.

The residence of Mr. George Collier was also slightly damaged by the fire.

24 GIRLS DEAD IN FACTORY FIRE

Horror Occurs in Box Factory in New Jersey.

FIFTY SENT TO HOSPITALS

Flames Sprang With Rush and the Trapped Girls Began to Leap From Windows of Factory—Some Were Caught in Life Nets.

In ten minutes twenty-four girls were burned alive in Newark, N. J., or crushed to death on the pavement in leaping from the windows and fire escapes of the four-story brick paper box factory at Orange and High streets. Sixteen of the twenty-four bodies recovered have been identified and six girls are still missing. They may be among the unidentified or they may be in the ruins.

Fifty were taken to hospitals, two of whom may die. Among the injured is Joseph E. Sloane, deputy fire chief, who was caught by the falling wall and buried in bricks and rubbish. He is badly hurt, but may recover.

The rush of flames was so incredibly swift and threw such unreasoning terror into the huddled working girls on the top story, that the body of one was found still seated on a chair which she had been busy when the first cry of "Fire" petrified her with fright.

The building was extremely inflammable and the first rush of flames cut off all possible escape by the stairways. The elevators made one trip, but took down no passengers. The only exit was by two narrow fire escapes, the lower platform of which was twenty-five feet from the street. Onto these overcrowded and steep ladders, ascribed with heat from lower windows, pressed forward a mob of women, blind with panic, driven by the fire and the others behind them.

A net had been spread beneath the windows and the girls began to jump "like rats out of a burning bin" was the way a fireman described the pell mail descent.

TURKEY BONE CAUSED DEATH. Fatal Thanksgiving Dinner in a Brooklyn Home.

Gertrude Goldstein, a 10-year-old Brooklyn girl, is dead in her home as the result of swallowing a turkey bone with her Thanksgiving day dinner.

The bone lodged in her esophagus and could not be extricated. Her violent coughing merely stirred the bone and its sharp end finally pierced the wall of the esophagus, causing great pain. The girl's mother, to alay her suffering, gave her some tea to drink, but the beverage leaked through the aperture in the gullet and trickled down into the lung. The child became unconscious almost at once and died without having regained consciousness.

DR. WARREN DIES. Rector of Trinity Church, New Orleans, Passes Away.

Rev. Dr. Beverley E. Warner, rector of Trinity church of New Orleans, and one of the best known Episcopal clergymen of the country, died at his home in that city Sunday. The immediate cause of his death was heart failure, following a brief attack of la grippe. The announcement from Trinity pulpit to the congregation that their pastor was dead brought forth a touching manifestation of grief, men and women weeping audibly.

Dr. Warner was born in Jersey City, N. J., October 14, 1855. He was ordained a minister of the Protestant Episcopal church in 1879. He was for some years rector of St. Stephen's church in Philadelphia, and had been pastor of Trinity church, New Orleans, for many years. In addition to his attainments in the church, Dr. Warner was well known as an author on literary and sociological topics. Among his writings are:

"Troubled Waters," a novel; "English History in Shakespeare's Plays," and "The Young Man in Modern Life."

WIFE MURDERED.

Bodies of Two Boys Found in Carolina Swamps.

Guy Rogers and Frontis Moore, aged 15 and 11, respectively, went hunting Thanksgiving day in the swamps of the Pee Dee river, near Bennettsville, S. C., and later their bodies were found in a ditch near their buggy. They had been murdered.

Circuit court was adjourned and practically the entire population of Bennettsville engaged in search for the assassins of the late Rogers. Rogers was the son of the county treasurer.
